

## **VHUB Data Analytics Assignment**

Refer to the given dataset, and answer the following questions in a collab notebook and attach with this email.

1. How many job titles are present for each domain?
2. What is the average projected growth across all job titles?
3. Find the top 5 job titles with the highest projected growth by 2030.
4. Which domain has the highest average projected growth by 2030?
5. What other interesting insights can you derive from the dataset?
